

Relationships, Sex and Health Education (RHSE) Policy

**Providing the rich soil that enables
our children to develop deep roots and flourish.**

Review date: Autumn Term 2024 by the Standards Committee

Confirmation of ratification by Governing Body:

Governor: J Gegg and M Anderson

Headteacher: A Flight

Statement of intent

At Amberley Parochial Primary School we understand that pupils must be provided with an education that prepares them for the opportunities, responsibilities and experiences of adult life. A key part of this relates to relationships and health education, which must be delivered to every primary-aged pupil. Primary schools also have the option to decide whether pupils are taught sex education.

Relationships education focusses on giving pupils the knowledge they need to make informed decisions about their wellbeing, health and relationships, and to build their self-efficacy. Health education focusses on equipping pupils with the knowledge they need to make good decisions about their own health and wellbeing.

We understand our responsibility to deliver a high-quality, age-appropriate and evidence-based relationships, sex and health curriculum for all our pupils. This policy sets out the framework for our relationships, sex and health curriculum, providing clarity on how it is informed, organised and delivered.

I. Vision and values

1.1 At Amberley we are committed to providing the rich soil needed for all to flourish; that is to equip the children in our care with the qualities and skills they need to go on to live fruitful lives. The teaching of PSHE supports and upholds this vision, playing a crucial role in preparing young people for the challenges facing our planet and life upon it.

"[It] gives pupils the knowledge, skills, and attributes they need ... to manage their lives, now and in the future. These skills and attributes help pupils to stay healthy, safe and prepare them for life and work in modern Britain. When taught well, PSHE education helps pupils to achieve their academic potential, and leave school equipped with skills they will need throughout later life." (PSHE Association, 2020d).

1.2 The Diocese of Gloucester Academy Trust schools undertake to follow the principles for faith sensitive and inclusive relationships education, relationships and sex education (RSE) and health education (RSHE) as set out in the 8 points of the **Church of England Charter for RSE** below, which have been based on the principles established by the Church of England's Pastoral Advisory Group and exemplified in the key documents - **Pastoral Principles for Living Well Together** and **Valuing All God's Children**.

We commit:

- 1. To work in partnership with parents and carers.** This will involve dialogue with parents and carers through all stages of policy development as well as discussing the resources used to teach their children and how they can contribute at home. It must, however, be recognised that the law specifies that what is taught and how it is taught is ultimately a decision for the school.
- 2. That RSHE will be delivered professionally and as an identifiable part of PSHE.** It will be led, resourced and reported to parents in the same way as any other subject. There will be a planned programme delivered in a carefully sequenced way. Staff will receive regular training in RSHE and PSHE. Any expert visitors or trainers invited into the school to enhance and supplement the programme will be expected to respect the schools published policy for RSHE.
- 3. That RSHE will be delivered in a way that affords dignity and shows respect to all who make up our diverse community.** It will not discriminate against any of the protected characteristics in the Equality Act (age, disability, gender reassignment, race, religion or belief, sex, sexual orientation, marriage and civil partnership and pregnancy and maternity) and will be sensitive to the faith and beliefs of those in the wider school community. RSHE will seek to explain fairly the tenets and varying interpretations of religious communities on matters of sex and relationships and teach these viewpoints with respect. It will value the importance of faithfulness as the underpinning and backdrop for relationships. It will encourage pupils to develop the skills needed to disagree without being disagreeable, to appreciate the lived experience of other people and to live well together.
- 4. That RSHE will seek to build resilience in our pupils to help them form healthy relationships and to keep themselves safe.** It will give pupils opportunities to reflect on values and influences including their peers, the media, the internet, faith and culture that may have shaped their attitudes to gender, relationships and sex. It will promote the development of the wisdom and skills our pupils need to make their own informed decisions.
- 5. That RSHE will promote healthy resilient relationships set in the context of character and virtue development.** It will reflect the vision and associated values of the school, promote reverence for the gift of human sexuality and encourage relationships that are hopeful and aspirational. Based on the school's values it will seek to develop character within a moral framework based on virtues such as honesty, integrity, self-control, courage, humility, kindness, forgiveness, generosity and a sense of justice but does not seek to teach only one moral position.
- 6. That RSHE will be based on honest and medically accurate information from reliable sources of information, including about the law and legal rights.** It will distinguish between different types of knowledge and opinions so that pupils can learn about their bodies and sexual and reproductive health as appropriate to their age and maturity.
- 7. To take a particular care to meet the individual needs of all pupils including those with special needs and disabilities.** It will ensure that lessons and any resources used will be accessible and sensitive to the learning needs of the individual child. We acknowledge the potential vulnerability of pupils who have special needs and

disabilities (SEND) and recognise the possibilities and rights of SEND pupils to high quality relationships and sex education.

8. **To seek pupils' views about RSHE so that the teaching can be made relevant to their lives.** It will discuss real life issues relating to the age and stage of pupils, including friendships, families, faith, consent, relationship abuse, exploitation and safe relationships online. This will be carefully targeted and age appropriate based on a teacher judgment about pupil readiness for this information in consultation with parents and carers.

2. Legal framework

2.1 This policy has due regard to legislation and statutory guidance including, but not limited to, the following:

- Section 80A of the Education Act 2002
- Children and Social Work Act 2017
- The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019
- Equality Act 2010
- DfE (2021) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education'
- DfE (2013) 'Science programmes of study: key stages 1 and 2'
- DfE (2020) 'Teaching about relationships, sex and health'
- DfE (2024) Keeping Children Safe in Education (particularly around child-on-child sexual violence and sexual harassment).
- DfE (2021) Sexual Violence and Sexual Harassment between Children in Schools and Colleges

2.2 This policy operates in conjunction with the following school policies:

- Safeguarding and Child Protection Policy
- Behaviour Policy
- Anti-Bullying Policy
- Online safety Policy
- SEND/Inclusion Policy
- Equal Opportunities Policy
- PSHE education policy

3.Roles and responsibilities

3.1 The governing board is responsible for:

- Ensuring all pupils make progress in achieving the expected educational outcomes.
- Ensuring the curriculum is well led, effectively managed and well planned.
- Evaluating the quality of provision through regular and effective self-evaluation.
- Ensuring teaching is delivered in ways that are accessible to all pupils with SEND.
- Providing clear information for parents on subject content and their rights to request that their children are withdrawn.
- Making sure the subjects are resourced, staffed and timetabled in a way that ensures the school can fulfil its legal obligations.
- Ensuring the religious ethos of the school is maintained and developed through the subjects.

3.2 The headteacher is responsible for:

- The overall implementation of this policy.
- Ensuring staff are suitably trained to deliver the subjects.
- Ensuring that parents are fully informed of this policy.
- Reviewing requests from parents to withdraw their children from the subjects.
- Discussing requests for withdrawal with parents.
- Organising alternative education for pupils, where necessary, that is appropriate and purposeful.
- Reporting to the governing board on the effectiveness of this policy.
- Reviewing this policy on an annual basis.

3.3 The **PSHE education subject leader** is responsible for:

- Overseeing the delivery of the subjects.
- Ensuring the subjects are age-appropriate and high-quality.
- Ensuring teachers are provided with adequate resources to support teaching of the subjects.
- Ensuring the school meets its statutory requirements in relation to the relationships, sex and health curriculum.
- Ensuring the relationships, sex and health curriculum is inclusive and accessible for all pupils.
- Working with other subject leaders to ensure the relationships, sex and health curriculum complements, but does not duplicate, the content covered in the national curriculum.
- Monitoring and evaluating the effectiveness of the subjects and providing reports to the headteacher.

3.4 The appropriate teachers are responsible for:

- Delivering a high-quality and age-appropriate relationships, sex and health curriculum in line with statutory requirements.
- Using a variety of teaching methods and resources to provide an engaging curriculum that meets the needs of all pupils.
- Ensuring they do not express personal views or beliefs when delivering the programme.
- Modelling positive attitudes to relationships, sex and health education.
- Responding to any safeguarding concerns in line with the Child Protection and Safeguarding Policy.
- Acting in accordance with planning, monitoring and assessment requirements for the subjects.
- Liaising with the SENCO to identify and respond to individual needs of pupils with SEND.
- Working with the PSHE education subject leader to evaluate the quality of provision.

3.5 The SENCO is responsible for:

- Advising teaching staff how best to identify and support pupils' individual needs.
- Advising staff on the use of TAs in order to meet pupils' individual needs.

4. Organisation of the curriculum

4.1 Every primary school is required to deliver statutory relationships education and health education. The delivery of the relationships education and of health education coincide with one another and will be delivered as part of the school's PSHE curriculum.

4.2. For the purpose of this policy: “**relationships education**” is defined as teaching pupils about healthy, respectful relationships, focussing on family and friendships, in all contexts, including online.

4.3 For the purpose of this policy, “**health education**” is defined as teaching pupils about

physical health and mental wellbeing, focussing on recognising the link between the two and being able to make healthy lifestyle choices.

4.4 For the purpose of this policy, “**Sex education**” is defined as teaching pupils about

developing healthy sexuality, and will cover issues, beyond those covered in the science and health curricula, that will be determined in response to the needs of the relevant cohort.

4.5 The relationships and health curriculum has been organised in line with the statutory requirements outlined in the DfE (2021) 'Relationships, Education, Relationships and Sex Education (RSE) and Health Education' guidance.

4.6 The relationships and health curriculum take into account the views of teachers, pupils and parents. We are dedicated to ensuring our curriculum meets the needs of the whole-school community.

4.7 The relationships and health curriculum is informed by issues in the school and wider community to ensure it is tailored to pupils' needs.

4.8 We consult with parents, pupils and staff in the following ways:

- Questionnaires and surveys
- Training sessions
- Newsletters and letters

4.9 Any parent, teacher or pupil wishing to provide feedback about the curriculum can do so at any time during the academic year by:

- Organising a meeting with the headteacher.
- Emailing admin@amb.gdgat.org.uk
- Submitting written feedback on the online consultation form **XXXXXX**

4.10 The school has organised a curriculum that is age-appropriate for pupils within each year group, based on the views of teachers, parents and pupils, and uses resources and planning from the SCARF programme of study.

4.11 When organising the curriculum, the religious backgrounds of all pupils will be considered, so that the topics that are covered are taught appropriately.

5. Consultation with parents

5.1 The school understands the important role parents play in enhancing their children's understanding of relationships, sex and health. Similarly, we also understand how important parents' views are in shaping the curriculum. This will include providing parents with frequent opportunities to understand and ask questions about the school's approach to relationships, sex and health education.

5.2 Parents are provided with the following information:

- The content of the relationships, sex and health curriculum
- The delivery of the relationships, sex and health curriculum, including what is taught in each year group
- The legalities surrounding withdrawing their child from the subjects
- The resources that will be used to support the curriculum

6. Relationships education overview

Families and people who care for me

By the end of primary school, pupils will know:

- That families are important for them growing up because they can give love, security and stability.
- The characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.
- That others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.
- That stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.
- That marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.
- How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.

Caring friendships

By the end of primary school, pupils will know:

- How important friendships are in making us feel happy and secure, and how people choose and make friends.
- The characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences, and support with problems and difficulties.
- That healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.
- That most friendships have ups and downs, but that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.
- How to recognise who to trust and who not to trust.
- How to judge when a friendship is making them feel unhappy or uncomfortable.
- How to manage conflict.
- How to manage different situations and how to seek help from others if needed.

Respectful relationships

By the end of primary school, pupils will know:

- The importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), make different choices, or have different preferences or beliefs.
- Which practical steps they can take in a range of different contexts to improve or support respectful relationships.
- The conventions of courtesy and manners.
- The importance of self-respect and how this links to their own happiness.
- That in school and wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.
- About the different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders to report bullying to an adult, and how to seek help.
- What a stereotype is, and how they can be unfair, negative or destructive.
- The importance of permission-seeking and giving in relationships with friends, peers and adults.

Online relationships

By the end of primary school, pupils will know:

- That people sometimes behave differently online, including pretending to be someone they are not.
- That the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online, even when we are anonymous.
- The rules and principles for keeping safe online.
- How to recognise harmful content and contact online, and how to report these.
- How to critically consider their online friendships and sources of information.
- The risks associated with people they have never met.
- How information and data is shared and used online.

Being safe

By the end of primary school, pupils will know:

- What sorts of boundaries are appropriate in friendships with peers and others – including in a digital context.
- About the concept of privacy and the implications of it for both children and adults.
- That it is not always right to keep secrets if they relate to being safe.

- That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.
- How to respond safely and appropriately to adults they may encounter (in all contexts, including online) who they do not know.
- How to recognise and report feelings of being unsafe or feeling bad about any adult.
- How to ask for advice or help for themselves and others, and to keep trying until they are heard.
- How to report concerns or abuse, and the vocabulary and confidence needed to do so.
- Where to seek advice, for example, from their family, their school and other sources.

7. Health education overview

The focus at primary level is teaching the characteristics of good physical health and mental wellbeing.

Mental wellbeing

By the end of primary school pupils will know:

- That mental wellbeing is a normal part of daily life, in the same way as physical health.
- That there is a normal range of emotions, e.g. happiness, sadness, anger, fear, surprise and nervousness.
- The scale of emotions that humans experience in response to different experiences and situations.
- How to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings.
- How to judge whether what they are feeling and how they are behaving is appropriate and proportionate.
- The benefits of physical exercise, time outdoors, community participation, and voluntary and service-based activity on mental wellbeing and happiness.
- Simple self-care techniques, including the importance of rest, time spent with friends and family, and the benefits of hobbies and interests.
- How isolation and loneliness can affect children and that it is very important they discuss their feelings with an adult and seek support.
- That bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing.
- Where and how to seek support (including recognising the triggers for seeking support), extending to who in school they should speak to if they are worried about themselves or others.

- That it is common to experience mental ill health and, for the many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

By the end of primary school, pupils will know:

- That for most people, the internet is an integral part of life and has many benefits.
- About the benefits of rationing time spent online.
- The risks of excessive time spent on electronic devices.
- The impact of positive and negative content online on their own and others' mental and physical wellbeing.
- How to consider the effect of their online actions on others.
- How to recognise and display respectful behaviour online.
- The importance of keeping personal information private.
- Why social media, some computer games and online gaming, for example, are age-restricted.
- That the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health.
- How to be a discerning consumer of information online, including understanding that information (inclusive of that from search engines) is ranked, selected and targeted.
- Where and how to report concerns and get support with issues online.

Physical health and fitness

By the end of primary school, pupils will know:

- The characteristics and mental and physical benefits of an active lifestyle.
- The importance of building regular exercise into daily and weekly routines and how to achieve this, for example by walking or cycling to school, a daily active mile, or other forms of regular, vigorous exercise.
- The risks associated with an inactive lifestyle, including obesity.
- How and when to seek support, including which adults to speak to in school if they are worried about their health.

Healthy eating

By the end of primary school, pupils will know:

- What constitutes a healthy diet, including an understanding of calories and other nutritional content.
- The principles of planning and preparing a range of healthy meals.

- The characteristics of a poor diet and risks associated with unhealthy eating, including obesity, and other behaviours, e.g. the impact of alcohol on diet or health.

Drugs alcohol and tobacco

By the end of primary school, pupils will know:

- The facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and prevention

By the end of primary school, pupils will know:

- How to recognise early signs of physical illness, such as weight loss or unexplained changes to the body.
- About safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer.
- The importance of sufficient good-quality sleep for good health, and that a lack of sleep can affect weight, mood and ability to learn.
- About dental health and the benefits of good oral hygiene and dental flossing, including regular check-ups at the dentist.
- About personal hygiene and germs including bacteria and viruses, how they are spread and treated, and the importance of hand washing.
- The facts and science relating to immunisation and vaccination.

Basic first aid

By the end of primary school, pupils will know:

- How to make a clear and efficient call to emergency services if necessary.
- Concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Changing adolescent body

- By the end of primary school, pupils will know:
- Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.
- About menstrual wellbeing and key facts relating to the menstrual cycle.

8. Sex education

Although it is not statutory to deliver sex education outside of the science curriculum at primary level, the DfE recommends that *all* primary schools should have a sex education programme in place. This should be tailored to the age, and physical and emotional maturity of pupils, and should ensure that boys and girls are prepared for the changes that adolescence brings, drawing on knowledge of the human life cycle.

8.1 All pupils must be taught the aspects of sex education outlined in the primary science curriculum – this includes teaching about the main external parts of the human body, how it changes as it grows from birth to old age, including puberty, and the reproductive process in some plants and animals.

8.2 The school is free to determine whether pupils should be taught sex education beyond what is required of the national curriculum.

8.3 At our school, we do teach pupils sex education beyond what is required of the science curriculum.

8.4 Parents are fully consulted in the organisation and delivery of our sex education curriculum, in accordance with [section 4](#) and [section 5](#) of this policy.

8.5 Parents are given the opportunity to advise on what should be taught through sex education.

The age and development of pupils is always considered when delivering sex education.

9. Delivery of the curriculum

9.1 Through effective organisation and delivery of the subject, we will ensure that:

- Core knowledge is sectioned into units of manageable size.
- The required content is communicated to pupils clearly, in a carefully sequenced way, within a planned scheme of work.
- Teaching includes sufficient and well-chosen opportunities and contexts for pupils to embed new knowledge so that it can be used confidently in real-life situations.

9.2 The curriculum is delivered proactively, such that it addresses issues in a timely way in line with current evidence on children's physical, emotional and sexual development.

9.3 Teaching of the curriculum reflects requirements set out in law, particularly the Equality Act 2010, so that pupils understand what the law does and does not allow, and the wider legal implications of the decisions they make.

10.RSE planning across year groups

- **10.1** The school is free to determine, within the statutory and non-statutory curriculum content outlined in section 6, 7 & 8 what pupils are taught during each year group.
- **10.2** The school always considers the age and development of pupils when deciding what will be taught in each year group.
- **10.3** The school plans a progressive curriculum, such that topics are built upon prior knowledge taught in previous years as they progress through school to provide a smooth transition to secondary school.

Please see Appendix A for curriculum plan which sets out areas taught across school.

11. Working with external experts

- **11.1** External experts may be invited to assist from time-to-time with the delivery of the programme and will be expected to comply with the provisions of this policy.
- **11.2** The school will ensure all visitor credentials are checked before they are able to participate in delivery of the curriculum, in line with the Visitor Policy.
- **11.3** The school will ensure that the teaching delivered by the external expert fits with the planned curriculum and this policy.
- **11.4** Before delivering the session, the school will discuss the details of the expert's lesson plan and ensure that the content is age-appropriate and accessible for the pupils.
- **11.5** The school will also ask to see the materials the expert intends to use, as well as a copy of the lesson plan, to ensure it meets all pupils' needs, including those with SEND.
- **11.6** The school will agree with the expert the procedures for confidentiality, ensuring that the expert understands how safeguarding reports should be dealt with in line with the Child Protection and Safeguarding Policy.
- **11.7** The intended use of external experts is to enhance the curriculum delivered by teachers, rather than as a replacement for teachers.

12. Curriculum links

12.1 The school seeks opportunities to draw links between relationships, sex and health education and other curriculum subjects wherever possible to enhance pupils' learning.

12.2 Relationships, sex and health education will be linked to the following subjects in particular:

- Science – pupils learn about the main external parts of the body and changes to the body as it grows from birth to old age, including puberty.
- Computing and ICT – pupils learn about e-safety, including how to use technology safely, responsibly, respectfully and securely, how to keep personal information private and how to access help and support.
- PE – pupils explore various physical activities, are physically active for sustained periods of time, engage in competitive sport and understand how exercise can lead to healthier lifestyles.
- Citizenship – pupils learn about the requirements of the law, their responsibilities and the possible consequences of their actions.
- PSHE – pupils learn about respect and difference, values and characteristics of individuals.

13. Withdrawing from the subjects

13.1 Relationships and health education are statutory at primary and parents do not have the right to withdraw their child from the subjects.

13.2 As sex education is not statutory at primary level (other than what must be taught as part of the science curriculum), parents have the right to request to withdraw their child from all or part of the sex education curriculum.

13.3 The headteacher will automatically grant withdrawal requests in accordance with point 13.2; however, the headteacher will discuss the request with the parent and, if appropriate, their child, to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum.

13.4 The headteacher will discuss with the parent, the benefits of receiving this important education and any adverse effects that withdrawal may have on the pupil – this could include, for example, social and emotional effects of being excluded.

13.5 The headteacher will keep a record of the discussion between themselves, the pupil and the parent.

13.6 The headteacher will grant a parent's request to withdraw their child from sex education, other than the content that must be taught as part of the science curriculum.

13.7 The parent will be informed in writing of the headteacher's decision.

13.8 Where a pupil is withdrawn from sex education, the headteacher will ensure that the pupil receives appropriate alternative education.

14. Behaviour

14.1 The school has a zero-tolerance approach to bullying. We aim to foster a culture based on mutual respect and understanding for one another.

14.2 Any bullying incidents caused as a result of the relationships, sex and health education programme, such as those relating to sexual orientation, will be dealt with as seriously as other bullying incidents within the school.

14.3 Any occurrence of these incidents will be reported to a member of school staff, who will then discipline the pupil once they are on school premises.

14.4 These incidents will be dealt with following the processes in our Safeguarding and Child Protection Policy, Behavioural Policy and Anti-Bullying Policy.

14.5 The headteacher will decide whether it is appropriate to notify the police or an anti-social behaviour coordinator in their LA of the action taken against a pupil.

15. Staff training

15.1 All staff members at the school will undergo training to ensure they are up-to-date with the relationship, sex and health education programme and associated issues.

15.2 Members of staff responsible for teaching the subjects will undergo further updates, led by the PSHE education subject leader, to ensure they are fully equipped to teach the subjects effectively.

15.3 Training of staff will also be scheduled around any updated guidance on the programme and any new developments, such as the sharing of indecent images including nudes and semi nudes, including through sexting, which may need to be addressed in relation to the programme.

15.4 Guidance can be sought at any time from the DGAT School Improvement Lead.

16. Confidentiality

16.1 Confidentiality within the classroom is an important component of relationships, sex and health education, and teachers are expected to respect the confidentiality of their pupils as far as is possible.

16.2 Teachers will, however, alert the headteacher about any suspicions of inappropriate behaviour or potential abuse as per the school's Child Protection and Safeguarding Policy.

16.3 Pupils will be fully informed of the school's responsibilities in terms of confidentiality and will be aware of what action may be taken if they choose to report a concern or make a disclosure.

16.4 Any reports made during lessons, or as a result of the content taught through the curriculum, will be reported to the DSL and handled in accordance with the Child Protection and Safeguarding Policy.

17. Monitoring quality

17.1 The PSHE education subject leader is responsible for monitoring the quality of teaching and learning for the subjects.

17.2 The PSHE education subject leader will conduct subject assessments on an annual basis, which will include a mixture of the following:

- Learning walks
- Work scrutiny
- Pupil voice

17.3 The PSHE education subject leader will create annual subject reports for the headteacher and governing board to report on the quality of the subjects.

18. Monitoring and review

18.1 This policy will be reviewed on an annual basis by the Trust Lead for RSHE and the CEO.

18.2 This policy will also be reviewed in light of any changes to statutory guidance, feedback from parents, staff or pupils, and issues in the school or local area that may need addressing.

18.4 Any changes made to this policy will be communicated to all staff, parents and, where necessary, pupils.

Appendices

Appendix A SCARF 'Learning Journey' detailing year group content.

Content will be taught in a rolling cycle. Cycle A – Year 1,3,5 and Cycle B Year 2, 4, 6.

Appendix B Vocabulary progression ([Link to file](#))

Learning Journey Growing and Changing Early Years

Children notice the similarities and differences between males and females. They begin to play inclusively with their friends, regardless of their sex (if not already doing so). They think differently and more openly about what a family may look like.

Children understand that animals and humans change in appearance over time. They use relevant vocabulary such as egg, seed, baby, grow, change, old, and young (and the names for young animals). They make observations and ask questions about living things.

Children are introduced to the basics of human reproduction (not sexual intercourse). They understand that a baby is made by a woman and a man, and grows inside a woman's tummy/womb. They recognise that every family is different and talk about the similarities and differences between themselves and others.

Children talk about how babies change as they grow, what they need and how this changes as they grow. They share their own experiences and listen to those of the others.

Children use the language and describe the different life stages of: baby, child, teenager, adult, older age, and talk about their own experience of growing up.

Children reflect on how they have changed as they have grown. They can explain the differences between babies, children, and adults, and understand that we are all unique.

Children learn the names of parts of the body (including reproductive parts) using the correct vocabulary. They can explain which parts of their body are kept private and safe - and why. They know to tell or ask an appropriate adult for help if they feel unsafe.

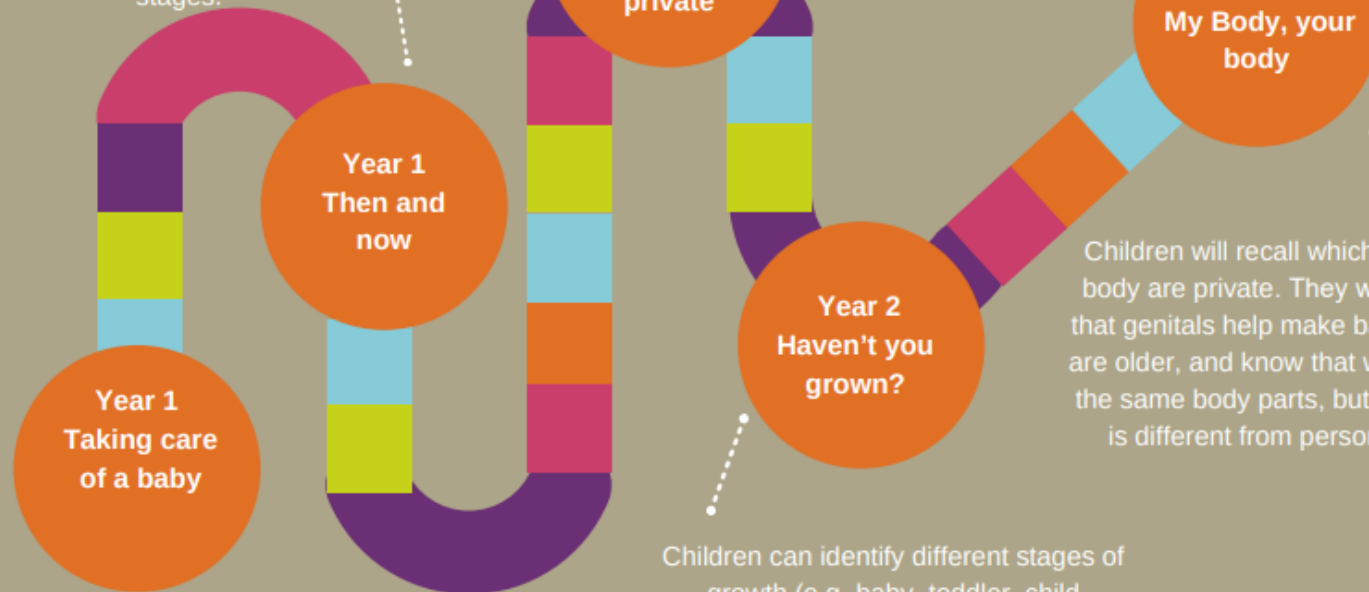

Learning Journey Growing and Changing Key Stage 1

coram
Life Education

SCARF

Children will be able to identify parts of the body that are private and ways in which they can be kept private. They can identify people that it's ok to talk to about their private parts.

Children will start to identify things they could do as a baby and toddler as well as things they can do now. They can identify the people who help or helped them at these different stages.

Children will understand some of the tasks required to look after a baby, and how to meet the basic needs of a baby, for example, eye contact, cuddling, washing, changing, and feeding.

Children can identify different stages of growth (e.g. baby, toddler, child, teenager, adult) and describe some of the things that people are capable of at these different stages.

Children will recall which parts of their body are private. They will understand that genitals help make babies when we are older, and know that we mostly have the same body parts, but how they look is different from person to person.

are all over the
place!

Children understand how the onset of puberty can have an emotional as well as physical impact, recognise that this may lead to conflict with parents and learn how to compromise.

Year 4
All change!

Year 4
Preparing for
changes at
puberty

Children will explain how human reproduction (not sexual intercourse) occurs, know how and why periods and wet dreams occur, and how to manage both successfully.

Children recall parts of the body that males and females have in common and those that are different, using the correct terminology for genitalia, and explain why puberty happens.

Learning Journey Growing and Changing Upper Key Stage 2

Children apply their knowledge of the various puberty changes, including menstruation, and identify some products that they may need during puberty, and why.

Children will increase their vocabulary for the external sexual organs, as well as debunk some of the myths associated with various puberty changes.

Children learn the variety of ways in which a couple can create a family (including through sexual intercourse), and how it can be prevented. They learn the legal age of consent and what it means.

**Year 5
Help! I'm a teenager-
get me out
of here!**

Children recall that puberty is an emotional as well as a physical change, how and why mood swings occur and how to manage their strong feelings.

**Year 5
Growing up
and
changing
Bodies**

**Year 5
Changing
bodies and
feelings**

**Year 6
Is this normal?**

Children will apply their knowledge of the physical and emotional changes experienced during puberty and list strategies that would help someone who felt challenged by these changes.

**Year 6
Making babies**

**Year 6
What is HIV?**

Children may also learn what HIV is, how it affects the body's immune system; and how it is transmitted and prevented.
